

Lab 1- HTML Fundamentals

Part 1 (Headings , Paragraphs and List)

Analyze and study the structure of the web page as presented in Figure 1.1. Then proceed to build the web page. You are to use your own name, jobs, schools etc.

Please ensure that you create a new folder to represent the web directory of your web page.

Job 2

Job Duties:

- Job Duty 1
- Job Duty 2
- Job Duty 3

Academic Background

School 1

Lorem ipsum dolor, sit amet consectetur adipisicing elit. Voluptatem, fuga?

School 2

Lorem, ipsum dolor sit amet consectetur adipisicing elit. Error, ullam.

Question 2 (Images and Links)

Modify the above created page from Question 1 and add an image of yourself, as shown below, and 3 links : **About me**, **Instagram** and **Facebook**. Note, the Instagram and Facebook link MUST be image links (use Font awesome icons). The about me link is an internal link and should navigate the user to the **aboutMe.html** (Figure 1.3). Instagram and Facebook image links are external links and should open up in a new tab window when they are clicked.

Question 3 (Build 2 page website)

You are required to build a second page called **aboutMe.html** (as shown in Figure 1.3). This page must link to the home page built in Figure 1.1 and the homepage must link back to this aboutMe page when the appropriate links are clicked.
